About University of Stuttgart...

- Public University, founded in 1829
- Is organized into 10 faculties
- The main study programs focus on:
 - risk analysis, risk management and risk communication in the context of globalization and mutual interdependence with a focus on environmental, climate and health risks.
 - socio-economic and institutional conditions of (technological) innovation processes, as well as on the economic, political, social and cultural conditions, including risks and opportunities, of socio-technical transformation processes.
 - Exploration and communication of the connections between ecological, economic, social and cultural expressions of future sustainable energy paths.
